Toshinori Narahara
Mayor
Kurume City
Fukuoka Prefecture, Japan

Re: Notice of International Accreditation of Kurume city as a Safe Community
Date: August 19, 2013

Dear Mayor Narahara:

As a result of thorough evaluation process, I am very pleased to inform you that Kurume has fulfilled 7 indicators for international accreditation as a “Safe Community”, which is coordinated by the World Health Organization Collaborating Center on Community Safety Promotion (WHO CC CSP) in Karolinska Institutet, Stockholm, Sweden.

The accreditation will become effective after signing on the “Agreement of a Safe Community” between the Mayor of Kurume and the Chair of the International Safe Community Support Center (the Center for Community Safety Promotion at Ajou University School of Medicine, Suwon, Korea) in its capacity as a Certifying Center to the WHO CC CSP.

I would like to welcome Kurume to the International Safe Community Network, and I am very looking forward to continuous contribution of Kurume to global movement of Safe Community by sharing their experience with other communities, nationally and internationally.

Congratulations and all the best of Kurume Safe Community!

CHO Joonpil
Chair
